SNAKE AND CREATURE AWARENESS POLICY

A potential, albeit very remote, risk is snakebite or a bite from a creature/insect such as a spider, ant, centipede, wasp or scorpion.

An important part of my programme is “Snake and Creature Awareness”. I want all those accessing our property to respect we're in a snakes and creatures/insects' natural habitat. We DO NOT touch snakes, spiders, centipedes, wasps or scorpions. We also learn to respect the natural habitats of these creatures.

It is a requirement of all participants (children and adults) to be clothed with appropriate long leg-wear, as better protection from snakebite and insect bite. Gumboots or another form of enclosed footwear is recommended as excellent protection for the feet and ankles in the event of a bite. Shoes can be removed, but at your own risk, as mentioned in the “Participants Agreement Letter Relating to Conditions of Use”.

Initially I will only operate during the cooler months, when snakes are less active, but all creatures are present at all times of the year.

All participants, including their accompanying adult, will be required to disclose if they have a known allergy or reaction to insect bite. Those families requiring the use of an epi-pen must have it on them at all times.
